Welcome to Jandamarras Art

My name is Jandamarra Cadd.

I specialize in Aboriginal Art, Landscapes, Portraits and Sketches with a theme of unification and capturing the spirit of people and the beauty of the land in Australia.

I am planning on a series that shows the different stages of my work and how it comes to fruition so that should be fun. You will find this type of thing on [my blog](#).

Art is a way that we can reach outward and inward to touch something that is common and unifying for us all.

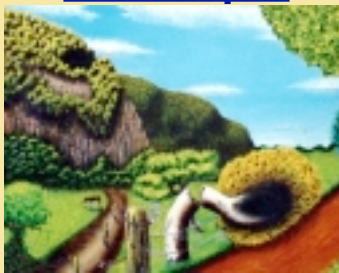

The spirit of the land is all around us, we just need to stop and tap into it.

Click on a gallery to view it from my website. Thank you.
